

## Petition to Extend the RLI Charter for an Additional 30 Years Beginning 11/10/2010

**It has come time to renew the charter for Runyan Lake Inc. The advantages of continuing RLI include managing and maintaining the island and boat ramp and contracting for weed control. Without RLI those activities would fall under a Lake Board, for which Runyan Lake owners would have only 1 representative. Lake Boards traditionally also result in significantly higher costs.**

**80% of the Members of RLI must be in support of extending the charter for RLI to continue. If you are agreeable to continue RLI for another 30 years, please sign this petition.**
